## STAFF CHOICE - BRAINDEAD

This week's staff choice is from Chloe who recommends Peter Jackson's cult classic BRAINDEAD. She says "Story goes, these great big rats come scuttling off the slave ships and raped all the little tree monkeys". BRAINDEAD screens this coming Friday at 9:00pm.

## DONKEY PUNCH

Director: Olly Blackburn

Thriller. Starring: Nichola Burley, Jaime Winstone, Sian Breckin

After meeting at a nightclub in a Mediterranean resort, seven young adults decide to continue partying aboard a luxury yacht in the middle of the ocean. But when one of them dies in a freak accident the others argue about what to do, leading to a ruthless fight for survival.

## STANDARD OPERATING PROCEDURE

Director: Errol Morris

Documentary

Documentarian Errol Morris conducts an expose of the soldiers involved in the shocking pictures from Abu Ghraib prison. Interviewing those who took and appeared in the photographs, Morris examines whether the headline-grabbing snapshots are evidence of physical and mental abuse, or have been twisted out of context to fit with sensationalist headlines.

## BRAINDEAD

Director: Peter Jackson

Horror. Starring: Timothy Balme, Diana Peñalver, Elizabeth Moody

While spying on her son and his date on a trip to the zoo, Lionel's domineering mother is bitten by a vicious Sumatran rat monkey and consequently starts manifesting some rather peculiar behavior, attacking all those unfortunate enough to get in her way and turning them into zombies.

## FEMALE AGENTS

Director: Jean-Paul Salome

Drama. Starring: Sophie Marceau, Julie Depardieu, Deborah Francois

In May 1944, a group of French servicewomen and resistance fighters are enlisted into the British Special Operations Executive commando group under the command of Louise Desfontaines and her brother Pierre. Their mission: to rescue a British army geologist caught reconnoitering the beaches at Normandy, and to kill a German SS colonel who is close to figuring out the imminent secret of D-Day.

## IRON MAN

Director: Jon Favreau

Action. Starring: Robert Downey Jr, Gwyneth Paltrow, Jeff Bridges

Billionaire industrialist and genius inventor Tony Stark is kidnapped by insurgents in Afghanistan and forced to build a devastating weapon. Using his intelligence and ingenuity, Tony instead builds a high-tech suit of armor and escapes captivity. When he uncovers a nefarious plot with global implications, he dons his powerful armor and vows to protect the world as Iron Man.

## CAMEL

Director: Nadine Labaki

Drama. Starring: Nadine Labaki, Yasmine Al Masri, Joanna Moukarzel

A deliciously sweet melodrama revolving around a Beirut beauty salon called Si Belle, which provides a focal point for the gossiping local women as they search for love and fulfilment.
